

What is Vodacom Broadband Fibre?

Vodacom Broadband Fibre is the next generation of internet.

250x faster than today's basic broadband, Vodacom Fibre gives you instant, uninterrupted connection that will revolutionise how you live, work and play. Unlike ADSL, which uses a copper-based infrastructure, Vodacom Fibre uses glass which means it's more reliable and stable, giving you a crystal clear experience.

Why should I choose Vodacom Broadband Fibre as an Estate Resident?

- Ultra-fast Broadband Internet Access with speeds of up to 100mps; the service is scalable to speeds of 1GBps over the same infrastructure
- Talk for Less; with Vodacom Fixed Voice save up to 30% on your landline bill through Fixed Voice; Vodacom will allow you to port your existing number to our Network
- Vodacom Broadband Fibre is installed into your home at no additional cost to the home owner or home owner's association.
- Vodacom will include a free Router with each installation.

What can Vodacom Broadband Fibre do for your Estate?

- Improve security: Your Estate can connect their CCTV cameras over fibre
- Vodacom will provide endpoints to enable Wi-Fi Hotspots in Communal Areas eg. Clubhouse
- Increase property value. With Vodacom Broadband Fibre, your home will increase in value*
- Zero upfront investment. Vodacom will cover the cost of fibre layout within your estate

Pricing Options

20Mbps Internet Line with 50GB Data*. **R799 pm**

Ideal for uploading and downloading in a flash and great for streaming video.
